

Just Acoustics

Flexi™ Catalogue

Our Acoustic Fabric Wrapped Panels.
Professionally made & tuned to deliver
high performance in every space.

Flexi™ Acoustic Panels

Acoustic treatment that actually works. Our in-house manufactured panels are built flexible enough to handle any space, whether fixing echo in an office, restaurant, studio, or worship hall.

Versatile & Effective

Broadband absorption across all frequencies, not just the highs. Flexi panels come in multiple paintable and fabric-wrapped finishes, colours, and sizes.

Mix and match to fit your space without compromising acoustic performance.

Fire Rating

EN13501-1 - Class A-s1,d0
BS 476 Part 4 - Pass
ASTM E136 - Pass
BS 5852: Part 1:1979 - Pass

Health Rating

TVOC Emission Rate - Non-detected
Asbestos Content - Negative
SVHC (Hazardous Substances) - Pass
Formaldehyde Emission - Non-detected
Toxicity Test - Non-toxic

Thermal Conductivity - 0.035 W/(m·K)

Sound Absorption

NRC (Noise Reduction Rating):
1" (25mm) - 0.80
2" (50mm) - 1.00

ASTM C423 (Mounting A)

Dimensions

Thickness:
1" (25mm), 2" (50mm)

Standard Sizes:
1200mm x 600mm
600mm x 600mm

Material Construct

Core Material: Formed, semi-rigid inorganic glass fibres

Fabric Face: Acoustically transparent polyester

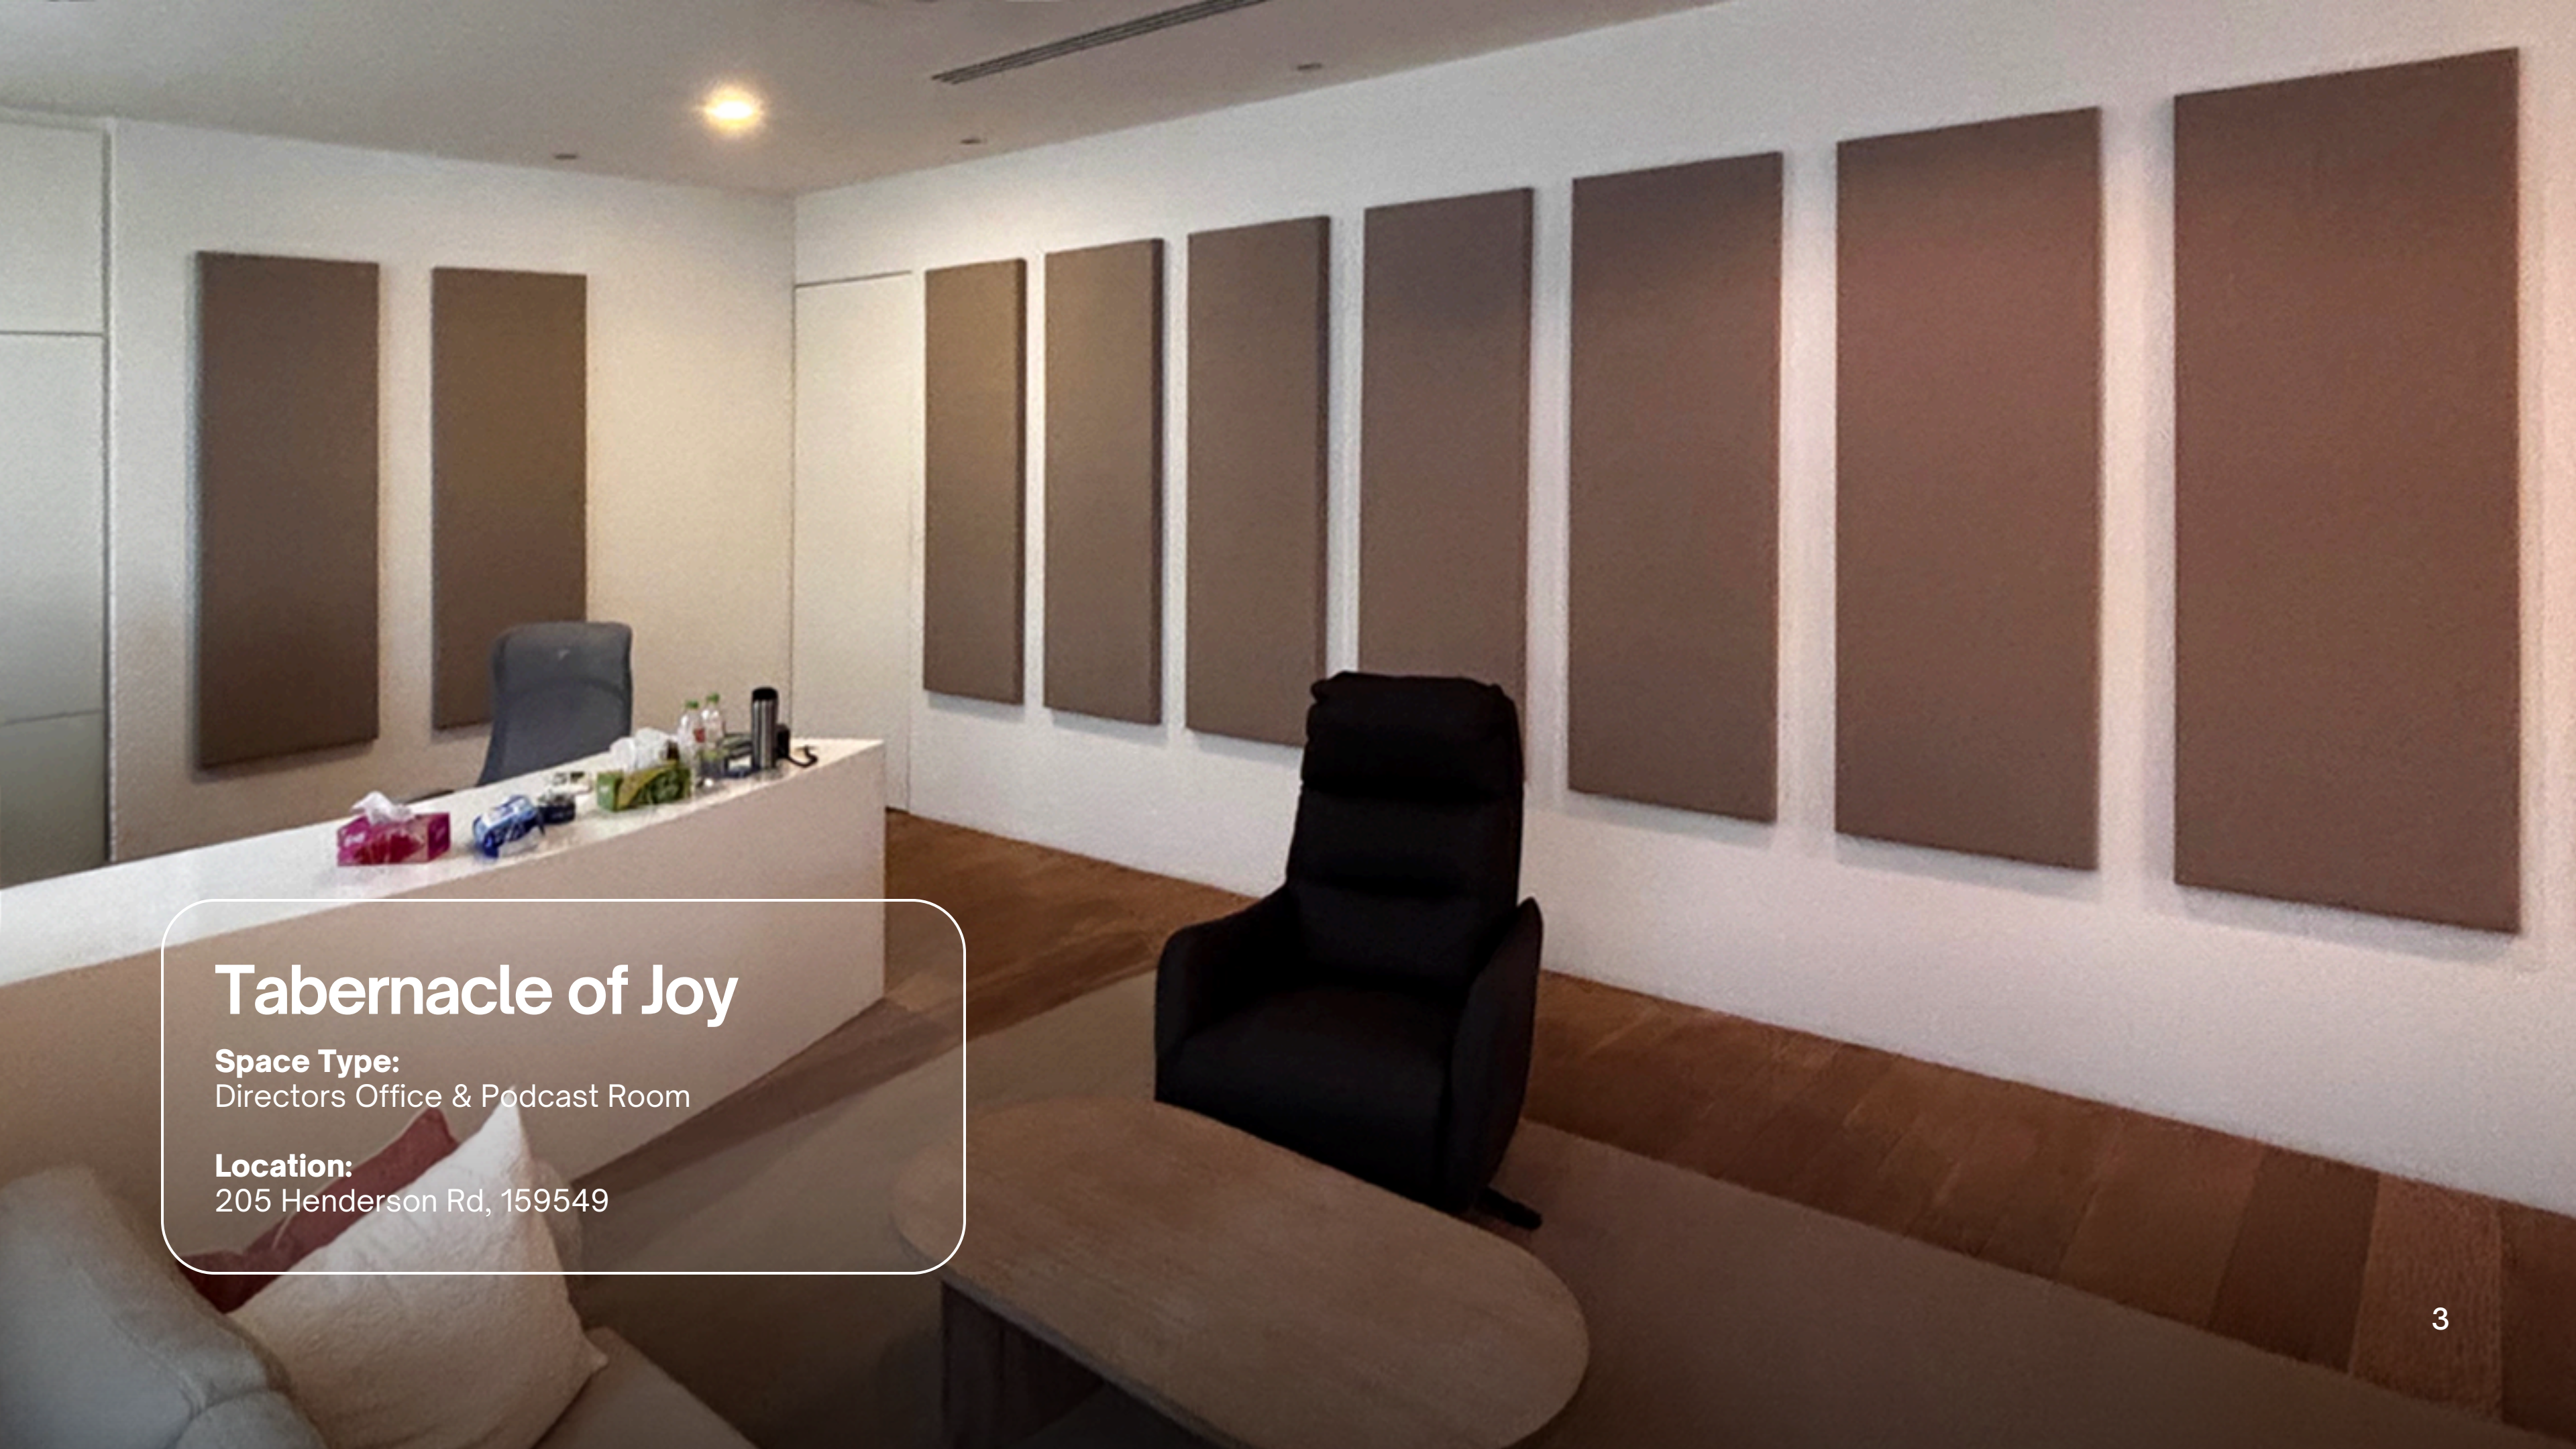

Backing: Glass wool tissue micro-mesh

Edge Treatment: Sealed and hardened with resin

Density: 96kg/m3 (6lb/ft3)

Recycled Content: Up to 51%

Tabernacle of Joy

Space Type:

Directors Office & Podcast Room

Location:

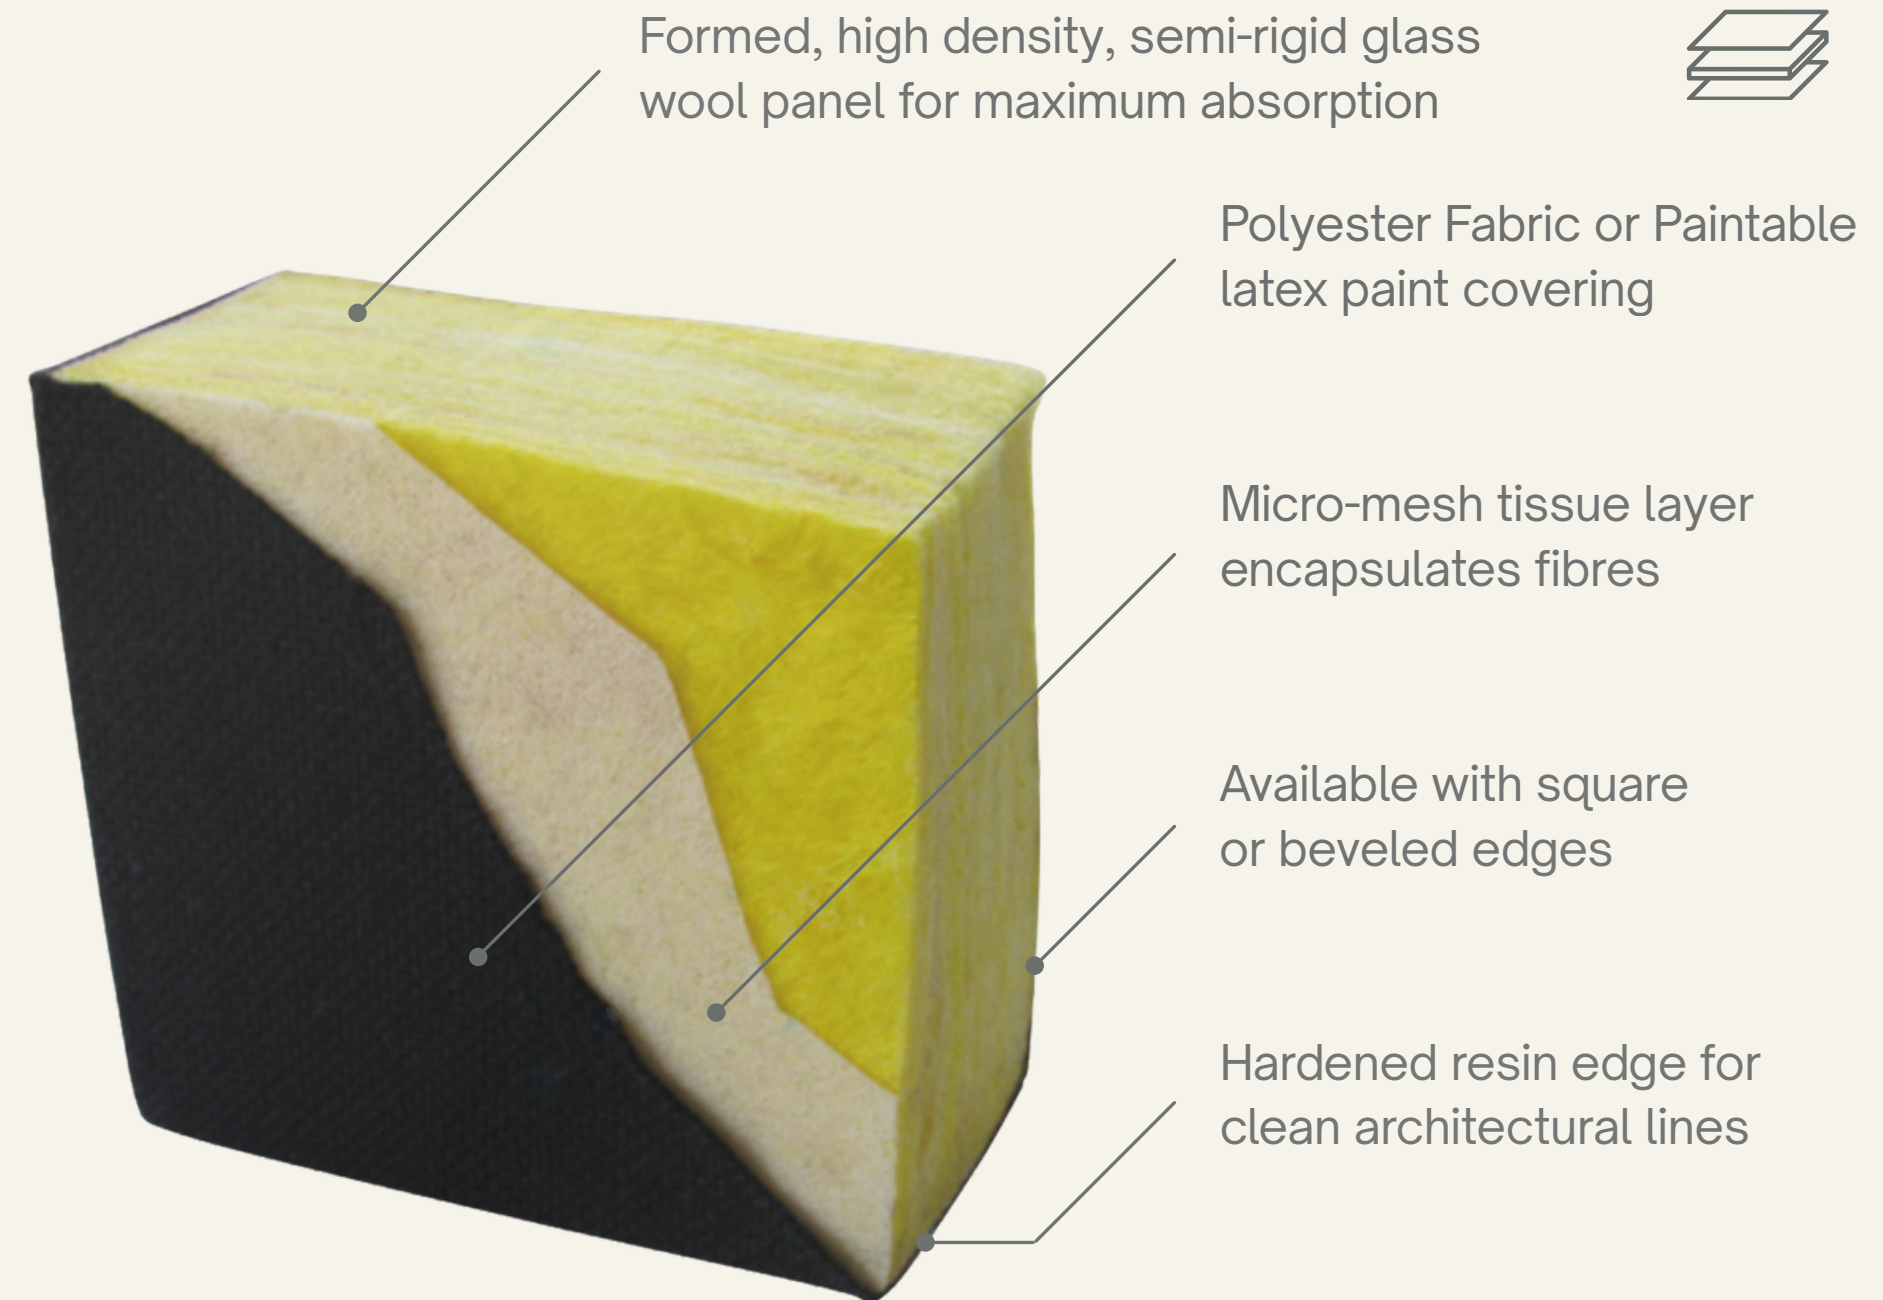

205 Henderson Rd, 159549

Flexi™ Acoustic Panels

Flexi™ panels are made with high-density 96kg/m³ semi-rigid glass fibre core with resin-hardened bevelled edges. The edge treatment works with the glass wool micro-mesh backing to fully encapsulate the fibres, preventing any particulate release during installation or use.

Panels come in two finish options: acoustically transparent polyester fabric wrap, or a paintable white glass fibre tissue face that accepts standard latex paint for custom colour matching.

For safety compliance, Flexi™ panels are tested to Class A1 non-combustible standards (EN 13501-1) and meet Singapore's requirements, making them suitable for offices, restaurants, studios, churches, and residential applications.

Capital Asia Investments

Space Type:

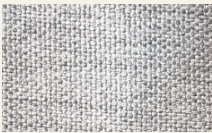

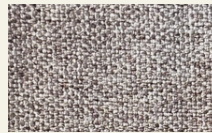

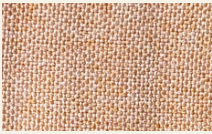

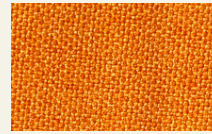

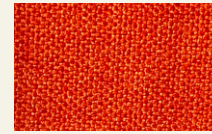

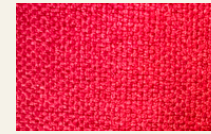

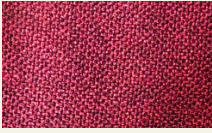

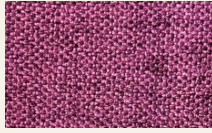

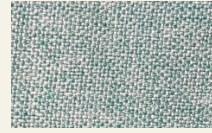

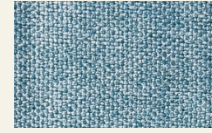

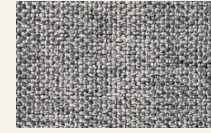

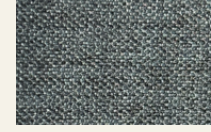

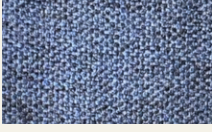

Corporate Office & Meeting Rooms

Location:

2160 Robinson Rd, #24-08 SBF Center, 068914

Colour Chart

Standard Selection

					
Egg White 01	Stone Grey 02	Sand 03	Ash 04	Pearl 05	Silver Mist 06
					
Frost 07	Dove Grey 08	Cement 09	Steel 10	Moss 11	Olive 12
					
Blush 13	Amber 14	Walnut 15	Terracotta 16	Crimson 17	Magenta 18
					
Rose 19	Plum 20	Fog 21	Seafoam 22	Sky Blue 23	Charcoal 24
					
Slate 25	Linen 26	Concrete 27	Ocean Blue 28	Powder Blue 29	Graphite 30
					
Navy 31	Oat 32	Mocha 33	Bone 34	Anchor Grey 35	Espresso 36

Some colours are not displayed here such as Navy Grey 37, Dark Grey 38, & Pitch Black 39. Contact us for the full selection.

Custom Print Option

- 
1. Upload your artwork
- 
2. Professionally Printed
- 
3. Ready for installation
